

# Why End Time News?

Here History before it happens is announced.

Prophecy is being fulfilled every day and few see it.

The prophecy of America and Britian union during the last seven years depicted in Revelation, must follow events consistent with it. Brexit took Britian out of the Common Market, setting the stage for the Revived Roman Empire of the Beast not including Britain, just as it wouldn't include America. But both Britain and America will unite under the "False Prophet". The US joining the Commonwealth is consistent as a forerunner of that event.

Moreover, Trump getting Europe to pay to sustain and strengthen Nato, and his talk of leaving it, is also consistent with being part of the Beast's Empire, and not Britain and America.

And Israel being in a time of peaceful existence, symbolically without walls as in Ezekiel, would be the result of what is happening now with Hamas, Hezbollah and Iran. They are being neutralized. Trump's plan for Gaza, is prefigure of what will happen during the Millennial kingdom. The Abraham accords set the stage.

These events are consistent with prophecy. So far.

Also the Russia Ukraine war ended any possibility of Russia (Gog) joining Europe. The Beast and Gog will fight each other for control of Israel.

The premise Britain and America are not in Bible prophecy violates the principle Bible prophecy is always about Israel, and the nations that affect it. No other nations affect modern Israel more than Britian and the US.

This is one of the few sites that tell you what prophecy foretold, before it happens.
